- **Tools:** Git, GitHub, Agile/Scrum, Postman, Figma, Jira, CI/CD.
- **Others:** Xcode, Android Studio, Unity, Photon, Blender, OpenGL.
- **Languages:** Spanish (Native), English (B2).

EXPERIENCE

- Frontend Web Developer**
Mente Financiera
• Designed and developed a responsive financial advisory website, applying modern UI/UX best practices and ensuring cross-device accessibility.
• Implemented features such as service catalogs, contact forms, and client testimonials to improve usability and engagement.
• Collaborated closely with stakeholders in weekly review sessions, achieving 100% on-time delivery of milestones.
- Feb 2024 – Jun 2024
Puebla, PUE
- Mobile Application Developer**
Green Carson
• Developed responsive mobile interfaces (Login, Registration, Map, Profile) for iOS and Android, enabling 1,000+ users to schedule recycling pickups and locate drop-off points.
• Implemented secure authentication with Firebase, reducing login issues and ensuring reliable user access.
• Optimized performance and responsiveness across devices, improving app load speed and overall user experience.
- Aug 2023 – Dec 2023
Puebla, PUE

PROJECTS

- Diego's Portfolio** | *React, JavaScript, HTML, CSS, Tailwind*
• Developed a responsive personal portfolio website showcasing software development projects and skills, enhanced with smooth animations and modern UI components.
• Implemented dynamic project showcases with modals and detailed project information displays.
• Built key sections including Hero, About Me, Skills, Projects, and a contact form to facilitate professional networking.
- Jul 2025 - Aug 2025
- Bazaar Profit Management Dashboard** | *React, JavaScript, HTML, CSS, Postman, Figma*
• Built a React-based admin dashboard for user management, sales tracking, and reporting for a children's hospital bazaar.
• Integrated RESTful APIs tested with Postman, ensuring reliable data flow between frontend and backend.
• Developed responsive UI/UX in React based on Figma designs, focusing on user-friendly interactions.
- Feb 2024 – Jun 2024
- Expoingenierias Web Platform** | *HTML, CSS, JavaScript, Bootstrap, PHP, MySQL*
• Developed a full-stack web platform to manage project registration, evaluation, and administration for a university expo with 200+ participants.
• Implemented role-based access for students, teachers, judges, and administrators, securing workflows.
• Designed a responsive UI with HTML/CSS, built interactive components with JavaScript and integrated a MySQL backend for secure data management.
- Feb 2023 – May 2023
